

Taxonomic Coding Example: CODMAS

Multi-Agent Collaborative Framework for Code Optimization | Software Engineering | 2026

Tier 1 (Core)

- V Perception & Context Acquisition
- V Reasoning & Planning
- V Action Execution
- V Tool & Capability Use

Tier 2 (Common)

- V Memory & State Management
- V Environment Interaction
- V Feedback & Reflection
- V Role & Multi-Agent Coordination

Tier 3 (Less Frequent)

- V Governance & Traceability
- V Human-in-the-Loop Collaboration

System Form:

Multi-Agent Collaboration System

Evaluation:

Benchmark, Ablation Study, Experiment
